

# Illinois Department of Commerce & Economic Opportunity

Pat Quinn, Governor • Warren Ribley, Director

---

June 2011

Dear Members of the General Assembly:

This document information fulfills the statutory directive that the Department of Commerce and Economic Opportunity (DCEO) report to the members of the General Assembly on the status of the Economic Development for a Growing Economy (EDGE) Tax Credit Program.

The purpose of the EDGE Tax Credit Program is to promote job creation and retention in Illinois through the award of tax credits to eligible businesses.

Since the Economic Development for a Growing Economy Tax Credit Act was passed by the General Assembly in 1999, through December 31, 2010, DCEO has received 667 EDGE Tax Credit applications of which 477 have been approved.

I trust that the following EDGE Tax Credit Annual Report for calendar year 2010 will be both informative and useful.

Sincerely,

Warren Ribley  
Director

2010

Economic Development for a Growing  
Economy (EDGE) Tax Credit Program  
Annual Report

## **ECONOMIC DEVELOPMENT FOR A GROWING ECONOMY (EDGE) TAX CREDIT PROGRAM CALENDAR YEAR 2010 REPORT**

One of the most successful economic development tools provided by the General Assembly and Governor Pat Quinn is the Economic Development for a Growing Economy (EDGE) Tax Credit Program.

The EDGE Tax Credit Program is a targeted tax incentive program that provides tax credits for businesses that create new full-time jobs, retain existing full-time jobs and make capital investments in Illinois. The EDGE Tax Credit Program is designed to help areas of Illinois that are in direct competition with other states for jobs and development.

The following report identifies the guidelines and accomplishments of the EDGE Tax Credit Program.

## EDGE ELIGIBILITY REQUIREMENTS

The Illinois Economic Development for a Growing Economy (EDGE) Tax Credit Program is intended to help the state compete with other states for the location of job creation or retention projects.

The Illinois EDGE Tax Credit Program is operated by the Illinois Department of Commerce and Economic Opportunity. Based on a review of a written application submitted by an interested firm, the Department is authorized to designate qualified businesses as “eligible”. Eligible businesses may claim a nonrefundable tax credit against their state income taxes. (The amount of the tax credit is calculated based on the income taxes paid by new employees and the retained employees.)

The designation is contingent upon the business undertaking a development project that:

- Involves at least \$5 million investment in capital improvements placed in service in Illinois and employs at least 25 New Full-Time Employees within the state as a direct result of the project; or
- Involves at least a \$2.5 million investment in capital improvements placed in service in Illinois and employs at least 50 New Full-Time Employees as a direct result of the project; or
- Involves an investment in a sufficient amount to employ at least 25 New Full-Time Employees, provided the project is located within or serves a distressed area or hires low-income workers; or
- Involves an investment at a level specified by the Department in capital improvements to be placed in service; employs New Full-Time Employees within the state at a level specified by the Department; and provides substantial economic benefit to the state, as determined by the Department. The Director may approve projects that do not meet the minimum job creation and investment thresholds for an applicant meeting all other requirements in the Act, providing that one or more of the following conditions are met:
  - A) The applicant’s business is located in a distressed community with an unemployment rate which is higher than the state’s average; or
  - B) The applicant’s business is located in an area with limited economic development prospects as evidenced by prior and current development activities; or
  - C) Approval would support a business with potential to generate additional growth in the area and create jobs as a result of spin-off businesses; or
  - D) Approval would avert the loss of one of the area’s major sources of employment.
- Involves a company with 100 or fewer Full-Time Employees whose investment will be at least \$1,000,000 in capital improvements which will be placed in service at a designated site in Illinois and employ at least 5 New Full-Time Employees at a designated site as a direct result of the project.

## COMPETITORS' TAX CREDIT PROGRAMS

Illinois' primary competitors for business locations and expansions are the bordering states of Kentucky, Indiana, Iowa, Missouri and Wisconsin. These states have similarly adopted tax credits as incentives for businesses locating or expanding operations. Those programs most similar to the EDGE Tax Credit Program in neighboring states are:

- Kentucky Rural Economic Development Act (KREDA) – Kentucky
- IA Industrial New Jobs Training Act – Iowa
- Economic Development for a Growing Economy (EDGE) – Indiana

Table I below shows the similarities of the programs and highlights the advantage of the Illinois EDGE Tax Credit Program:

**TABLE I**

	<b>Illinois</b>	<b>Kentucky</b>	<b>Indiana</b>	<b>Iowa</b>
<b>Minimum Jobs Created</b>	25+	15+	Expected but not Specified	+10% increase in base employment
<b>Length of Incentive</b>	10 Years	15 Years	10 Years	1 Year
<b>Minimum Investment</b>	\$5,000,000	\$100,000	Not Specified	Not Specified

The Table illustrates that the EDGE Tax Credit Program is competitive with those of bordering states. Other competing states in which Illinois was chosen as the final project site include the following: Arizona, Arkansas, California, Colorado, Connecticut, Florida, Georgia, Kansas, Maryland, Massachusetts, Michigan, Minnesota, Nebraska, Nevada, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Texas and Virginia.

## **EDGE TAX CREDIT PROGRAM SUMMARY**

DCEO has received 667 EDGE Tax Credit applications from **December 22, 1999, through December 31, 2010.**

The breakout of these 667 applications is as follows:

477	EDGE applications approved
190	EDGE applications withdrawn
449	Signed EDGE Agreements
662	Tax Certificates issued
159	Number of different companies who received Tax Certificates
\$349.1 M	Total amount of tax credits issued

The following is a summary of the projects, which were approved in Calendar Year 2010 (January 1, 2010 through December 31, 2010)

	COMPANY	CITY (Illinois)	REGION	JOBS CREATED	JOBS RETAINED	PROJECTED PRIVATE \$ INVESTMENT
1	Accretive Health, Inc	Chicago	NE	100	0	\$10,049,813

## **DESCRIPTION OF EDGE PROJECTS**

The following is a description of each project, which was approved in Calendar Year 2010, which began on January 1, 2010 and ended on December 31, 2010.

### **EDGE PROJECT INFORMATION**

#### **Accretive Health, Inc.**

Accretive Health, Inc. is planning to implement a Business-to-Business (B2B) call center located in the United States. The call center will operate as a shared service across the company; it will work to consolidate disparate workloads across various client hospital systems in order to gain efficiencies through economies of scale.

The specific purpose of the Patient Financial Services (PFS) call center will be to work with third party insurance companies ("payers") to mitigate payment denials and to resolve payment issues. The individuals involved in these positions will be trained with respect to proprietary software, standard healthcare and billing concepts and the application of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and any other federally or state-mandated changes to healthcare.

Accretive Health, Inc. will create 100 full-time jobs and make a Capital Investment of \$10,049,813.

#### **APP Pharmaceuticals, Inc.**

APP Pharmaceuticals is a leading manufacturer of multi-source and branded injectable pharmaceutical products for acute medical care both in patient and ambulatory settings. Through continuous expansion of its broad portfolio of products covering a wide array of therapeutic categories, their products provide ongoing affordable healthcare helping millions of people in the United States and Canada fight critical illnesses. Headquartered in Schaumburg, Illinois, APP, which was acquired by Fresenius Kabi Pharmaceuticals Holding, Inc. in September 2008, has offices in Canada and manufacturing operations in Illinois, New York and Puerto Rico.

APP reviewed several strategic relocation options for its North American Headquarters as well as its Product Development group (with related functions). The Illinois retention scenario would relocate the Product Development group from Melrose Park to the Illinois Science + Technology Park (Skokie) and retain the Headquarters in Schaumburg. APP will invest \$43,045,383 towards leases (NPV), building improvements and equipment in Skokie and Schaumburg.

#### **Arrowstream, Inc.**

Arrowstream, Inc. is currently located in inadequate, inefficient space with an inability to expand within their current location. Their new location will also enhance their corporate morale. The development of a new corporate office facility will provide operating efficiencies through a consolidation of office locations within the Midwest and provide space for anticipated future growth.

State assistance is necessary due to the cost differential of downtown Chicago versus two other locations within Green Bay, Wisconsin.

Arrowstream, Inc. will create 30 full-time jobs and make a Capital Investment of \$4,783,264.

### **Astellas US LLC**

Due to changes in the company's global management system and significant expansion in the United States, Astellas US LLC has outgrown its current national headquarters facility in Deerfield. The company is considering three options for accommodating its additional growth: (1) expanding the current headquarters facility by leasing additional space in several separate buildings not all of which are contiguous to their current headquarters building on the same office complex in Deerfield, thereby posing security issues; (2) relocating the current headquarters to a single tenant secure location in two buildings that will accommodate all existing employees and any additional growth in Glenview; or (3) opening a new regional headquarter facility in Santa Monica, California - where Astellas recently acquired another pharmaceutical company - Agensys Inc.

Astellas' second option, to relocate the corporate headquarters to a new facility in Glenview, allows the company to locate the headquarters as a single tenant in two buildings that will be large enough to accommodate current and future growth. Relocating the facility to Glenview would allow a space for the headquarters operations to grow as the only tenant, which will enhance security.

Astellas US LLC will create 150 new full-time jobs and make a Capital Investment of \$140,000,000.

### **CAMtek, Inc.**

Currently located in Bloomington, Illinois, CAMtek, Inc. is an Electronics Manufacturing Services (EMS) provider, specializing in technologically advanced printed circuit card assembly and other value added services to a wide range of industries including: aerospace, medical, military, communications, agriculture, and large equipment manufacturers. The company provides high quality, cost effective manufacturing solutions to customers located throughout the USA, shipping to on-shore and off-shore locations, utilizing state-of-the-art equipment and processes, while operating in a pristine "green" climate controlled manufacturing environment.

CAMtek, Inc. has outgrown its current leased facility and expanding at their current location is not an option. After looking locally, state wide, and in near by states, their focus for expansion has gravitated to the vacant building located at 2402 East Empire, Bloomington, Illinois (previously known as the IRS building). This facility offers a floor plan that can support our immediate needs as well as give us the unlimited means for future growth. The 225,000 square foot building has adequate amperage for equipment needs as well as office/break room space for engineering and administration support. Initially, CAMtek would occupy approximately 98,000 square feet.

CAMtek, Inc. will create 29 full-time jobs, retain 37 full-time jobs and make a Capital Investment of \$4,889,237.

### **Cellco Partnership d/b/a Verizon Wireless**

Verizon Wireless leases over 100,000 square feet at their facility at 777 Big Timber Road, Elgin, Illinois. The company occupies 100% of the building. Verizon Wireless has leased this facility since 1996. The facility houses an inbound call center, which supports customers across the Midwest Area.

The company is considering a long-term commitment to retain 700 full-time employees at the current location. Verizon Wireless will make a Capital Investment of \$10,070,513.

### **Chrysler Group, LLC**

The proposed project involves an expansion and upgrades to the Belvidere Assembly Plant located at 3000 W. Chrysler Drive in Belvidere, Illinois. A significant building expansion is proposed to add a new 500,000 sq. ft. addition to the north side of the existing facility and the installation of new manufacturing machinery, special tooling and material handling equipment in stamping and assembly operations. With this investment the Company is seeking to retain 1,950 full time positions required to operate the facility. Without the necessary upgrades and technological improvements the continuing viability of the facility is uncertain.

### **Colmac Coil Midwest, Inc.**

When Baltimore Aircoil (BAC) made the decision to close the Paxton facility and relocate most of its production to existing east and west coast plants, it was also determined to not relocate the aircoil portion of BAC business. This particular portion of the BAC business accounted for approximately 10-20 percent of the total Paxton production. The decision presented a unique opportunity for Colmac to acquire the line, to form a relationship with BAC and, perhaps, to operate the line in Paxton rather than in Colville. It has been doing all of this, from the Paxton site, for the past year. The building usage is on a one year lease basis between BAC and Colmac Coil Midwest, Inc. As a part of this new relationship, Colmac distributes aircoil evaporators along with its existing line of standard and custom industrial refrigeration evaporators and air cooled condensers exclusively through the BAC representative network in the USA, Canada and Mexico.

The project proposed would result in a new entity, Colmac Properties Midwest, LLC purchasing the existing BAC property and leasing same to Colmac Coil Midwest, Inc. As a result of the ten year lease of the former BAC building, Colmac Coil Midwest, Inc. would remain in Paxton and continue and expand its manufacturing operation. The building to be acquired is located at 350 Baltimore Drive, Paxton, Illinois and is approximately 150,000 square feet on a 43 acre site. The proposed lease agreement covers a ten year period with the ability to renew.

Colmac Coil Midwest, Inc. will create 25 full-time jobs, retain 25 full-time jobs and make a Capital Investment of \$1,471,305.

## **Consolidated Communications Holdings, Inc. & Subsidiaries**

Consolidated Communications Holdings, Inc. and Subsidiaries ("CCI") offers a wide range of services over its technology advanced IP-based network, including local and long distance telephone, high-speed internet access and digital TV. CCI is the 13<sup>th</sup> largest telephone company in the U.S. It remains headquartered in Mattoon, Illinois and employs some 980 people in Illinois, Texas and Pennsylvania.

As part of the Company's focus on remaining competitive and able to continue to invest in the best interests of customers and shareholders, CCI conducted on-going assessments of its resource commitments and facilities needs. The Company's investment and the location of resources must correspond to the company's market-place growth objectives for each of their operating territories and for the Company as a whole. Many of CCI's personnel performing back office functions, such as customer service support, technical support, and shared services, are interchangeable and not dependent on locations.

Consolidated Communications Holdings, Inc. and Subsidiaries will retain 244 full-time jobs at various locations in Mattoon (breakout of jobs per facility is listed in the application), and make a Capital Investment of \$5,376,131.

## **Combined Insurance Company of America**

In 2008 Combined Insurance Company of America undertook a company-wide effort to become more efficient and operationally effective. The effort includes initiatives that strive to eliminate, simplify, consolidate, automate or outsource as appropriate many of the processes in the front and back offices in all countries where Combined conducts business and touches all areas of the company. In particular, two directives within that effort are the driving force behind the need to relocate the center: the need to reduce the costs to be more competitive in our back office processes and the need to re-direct the capital tied-up in the ownership of buildings/offices.

As a result of the Real Estate strategy, offices across ACE and Combined have been reviewed for consolidation; for relocation, and for sale in the case of the few offices still owned (as of this time there are only 3 locations owned by Combined: Kingston, UK; Sydney, Australia; and 5050 N. Broadway).

The 5050 N. Broadway location is a complex of 4 buildings and 3 parking lots. The center includes order entry, underwriting, policy issuance, an agent support call center, a customer service call center, retention call center, field compensation services, claims; information technology and other smaller units.

Combined Insurance Company of America will retain 410 full-time jobs at their new facility at 111 East Wacker Drive, Chicago, Illinois. The Company will make a Capital Investment of \$11,500,818.

### **Command Transportation, LLC**

Command Transportation, LLC (“Command”) currently houses operations in Skokie, Illinois and Overland Park, Kansas. Its organic growth necessitates the expansion of its operations. In order to accommodate the projected growth of Command business, the company needs to increase the number of employees, and obtain additional office space. Each new employee will also attend an in-depth and lengthy training program, at considerable expense to Command. In order to facilitate training, strengthen its corporate identity and control costs, Command considered both Illinois and Kansas as sites to expand its operations. Expansion costs in Kansas are significantly less than in Illinois.

Command Transportation, LLC will create 50 full-time jobs and make a Capital Investment of \$2,500,000.

### **Corpak MedSystems, Inc.**

Corpak MedSystems, Inc. manufactures and markets enteral/vascular access devices such as feeding tubes that are used primarily in the acute care settings: hospitals and surgery centers.

Corpak MedSystems, Inc. plans on expanding its “clean room” operations along with the addition of technical and professional staff to support the growth of the business. The physical limitations of the current facility do not make this possible.

Corpak MedSystems, Inc. will relocate to Buffalo Grove, Illinois. The Company will retain 100 full-time employees and make a Capital Investment of \$3,835,256.

### **Coyote Logistics, LLC**

As a result of the GFS merger, Coyote Logistics, LLC currently has two headquarters. One headquarter campus in Lake Forest, Illinois and the other in Alpharetta, Georgia, an international logistics hub. Coyote Logistics, LLC needs to expand its headquarters operation and significantly increase its employee headcount.

As a result of the inefficiencies created by maintaining two headquarter operations, the company will be combining the headquarter operations into a single facility location in Chicago, Illinois.

Coyote Logistics, LLC will create 75 full-time jobs, retain 141 full-time jobs and make a Capital Investment of \$8,824,078.

### **Deere & Company**

Deere & Company is proposing to expand the Worldwide Product Engineering Center (PEC) in Silvis, Illinois along with investing significant capital at the East Moline, Illinois Harvester Works Factory in support of a new Combine Model.

There will be a total of 190 full-time Illinois jobs retained at the Silvis Product Engineering Center. An estimated 80 full-time positions would be moved from the Harvester Works location to Silvis as part of the total 190 retained full-time jobs. The remaining 110 full-time positions that would be retained are currently located at the Silvis facility.

The Silvis PEC employees would be largely supporting the development of new Combine Models and seeding equipment manufactured in East Moline for domestic and global markets.

Deere & Company's Capital Investment will be \$38,000,000.

### **Enterprise Recovery Systems, Inc.**

The project is in anticipation of an award to Enterprise Recovery Systems, Inc. (ERS) for collection services on an outstanding procurement issued by the United States Department of Education. The contract award is for a four year period with extension terms up to six additional years. The Education collection contract is a long standing government procurement with a significant history to substantiate the needs and potential revenue.

The Company has outgrown their facility in Westchester, Illinois and has identified a larger facility in Oak Brook, Illinois.

Enterprise Recovery Systems, Inc. will create 50 full-time jobs, retain 155 full-time jobs and make a Capital Investment of \$6,165,917.

### **Ernst & Young U.S. LLP**

The Company will complete the project located at 155 North Wacker Drive, Chicago, Illinois which will provide services to clients located across the Midwest and throughout the United States. The Company shall create 150 full-time jobs and retain 850 full-time jobs. The Company will make Capital Improvements of \$40,480,479.

### **Farmland Foods, Inc.**

The company currently employs 1,436 at 1220 North 6th Street, Monmouth, IL. As the result of the project, Farmland Foods, Inc. shall hire a minimum of 30 additional full-time employees. In order for a facility to remain competitive, there is a need for capital improvements and facility upgrades, particularly in a case of a manufacturing building constructed approximately 46 years ago. To accommodate both current and future increased levels of production at the Monmouth facility, Farmland will make improvements through a series of projects that relate to enhancing processing areas and support facilities within an area of approximately 32,000 sq. ft. at the current location dedicated to improving efficiency and capacity. Farmland's processing floor is significantly smaller than floors serving comparable manufacturing loads. The addition of the new construction will offer efficiencies and automation that will bring the facility in line with superior manufacturing standards. The efficiency of the new layout will enable the plant to run two lines, which is intended to enhance rail utilization and to increase yields.

### **FedEx Ground Package System, Inc.**

The Company will lease a newly constructed, approximately 206,000 square foot Midwestern U.S. business-to-business and business-to-residential small package transportation facility in Grayslake, Illinois. The project will be part of the Company's ongoing North American network expansion plan. The primary alternative site under consideration was in Wisconsin.

The project will create 25 jobs and the Company will invest \$15,500,000.

### **Fresh Express Incorporated, a wholly owned subsidiary of Chiquita Brands International, Inc.**

The strategic intent of the project is for Fresh Express Incorporated, a wholly owned subsidiary of Chiquita Brands International, Inc. to remove current redundant operations through the consolidation of its operations into a single facility. In addition the Company will increase automation that will allow Chiquita to respond to current market pressures streamlining production; therefore, becoming more productive and efficient. It is also the intent of the project to select a location that will lend itself to support and trigger new market share growth and business development in the broader Midwest region. The consolidation project will require a building expansion and overall a substantial investment.

The Company will retain 674 full-time jobs and make a Capital Investment of \$59,481,887. The Capital Investment will consist of the purchase of machinery and equipment.

### **GETCO LLC**

The Company's current headquarters in Chicago is not large enough to house future growth; therefore they will need to relocate their headquarters to a larger space. The project includes the retention of 165 full-time employees and the creation of 25 new full-time jobs over 2 years. The Company will rent new and larger spaces at 350 N. Orleans Street, Chicago, Illinois.

The Company will make Capital Improvements of \$36,889,653.

### **Goglanian Bakeries, Inc.**

Goglanian Bakeries, Inc. (GBI) will lease a flat bread manufacturing plant and distribution center that is closer to current customers and new distribution channels. Capacity constraints and new business are driving the company's expansion to the Midwest. New business opportunities are driving the demand. In addition GBI's strategy is to present a national footprint to their customers which require a Midwest presence to compliment their Atlantic Coast and Pacific Coast operations. The Midwest facility is also crucial to the Company's Green Initiatives to reduce carbon emissions through lower transportation miles.

Goglanian Bakeries, Inc. will create 85 full-time jobs and make a Capital Investment of \$31,271,102.

### **Grecian Delight Foods, Inc.**

Due to the growth in sales that Grecian Delight Foods, Inc. has experienced, the Company needs to expand its flatbread production capacity. The Company is in the processes of acquiring a new flatbread production line that will increase capacity by 50%. Placing this line in its current facility is not a desirable option as excessive disruption to the existing business would occur as it attempted to retro fit the facility to handle this line. In addition, it would constrain any future growth while causing inefficiencies and additional costs.

In addition, Grecian Delight Foods, Inc. and its 100% owned subsidiary United Food Service are operating in two facilities in Elk Grove Village, Illinois. Management desires to increase operating efficiencies by relocating the operations of both entities to one facility. Moving operations to the facility at 1301 Estes, Elk Grove Village, Illinois will allow the Company to meet these goals.

Grecian Delight Foods, Inc. will create 17 full-time jobs and make a Capital Investment of \$16,369,616.

### **Groupon, Inc.**

Groupon, Inc. is seeking to expand its operations in Chicago by employing more people for technology development, merchant relations, customer relations, human relations, editorial, and other functions. The location is the same as the Company is currently located - 600 West Chicago Avenue, Chicago, Illinois - but in a different (i.e. additional) location within the building.

Groupon, Inc. has several other options for the location of this expansion, including expanding its current California-based operations, and opening a facility in various states which have expressed interest in Groupon, including the State of Michigan.

Groupon, Inc. will create 250 full-time jobs and make a Capital Investment of \$6,100,054.

### **Guaranteed Rate, Inc.**

Guaranteed Rate, Inc. is growing rapidly throughout the country, especially in the Midwest region. They evaluated their real estate options to expand in their current facility or in Troy, Michigan where they have found a lower cost alternative location. However, Guaranteed Rate, Inc. has an opportunity to purchase their existing facility at 3940 Ravenswood which would allow them to expand within their current building.

Guaranteed Rate, Inc. will create 100 full-time jobs and make a Capital Investment of \$6,630,000.

### **Horizon Therapeutics, Inc.**

Over the next two years, Horizon Therapeutics, Inc. will be building out its internal operations in alignment with the submission of the NDA to the FDA. Pending FDA approval, a ramp up of a national sales force to successfully launch its leading candidate will be developed. This will require the hiring across all departments including: Finance, Human Resources, Marketing,

Manufacturing, Clinical, Regulatory, Administration, etc. In the course of the next two years, Horizon Therapeutics will employ a minimum of 50 full-time employees as the company develops the infrastructure and pharmaceutical rollout.

The Company's Capital Investment will be \$3,956,047.

### **Ingersoll Cutting Tool Company**

Ingersoll Cutting Tool Company considered leasing a new building on their existing business campus in Rockford, Illinois for a distribution center, or a facility in Louisville, Kentucky.

Ingersoll Cutting Tool Company will create 10 full-time jobs and make a Capital Investment of \$8,984,057.

### **Intellihot Green Technologies, Inc.**

Intellihot Green Technologies, Inc. (a start-up company) plans to set up a 25,000 sq. ft. brand new manufacturing facility in Galesburg, Illinois. The Sustainable Business Center (former Carhartt building) located at 2900 W. Main Street, Galesburg, Illinois will be leased. This facility will serve to build, test, and carry out logistical operations for sale of the water heaters.

The Company will create 45 full-time jobs and make a Capital Investment of \$1,186,182.

### **James Hardie Building Products, Inc.**

James Hardie Building Products, Inc. is looking to consolidate the physical residence/office in the USA and is looking to relocate the CEO, CFO and GC from the Netherlands to the USA. Additionally, the Company will either relocate or add several senior, middle and lower level positions in its new primary residence/office location. The existing office in Chicago, Illinois currently has 57 (sales & marketing) employees who are located at 29 N. Wacker Drive in Chicago, Illinois. The new office which the Company selected is located at 231 South LaSalle Street, Chicago, Illinois.

James Hardie Building Products, Inc. will create 22 full-time jobs and make a Capital Investment of \$3,172,669.

### **Kaplan Higher Education Corporation**

Currently, Kaplan Higher Education Corporation's employees occupy premises in four separate buildings in Chicago under four subleases and one direct lease, all of which are set to expire between the end of November, 2009 and January, 2011. Due to lease encumbrances and space limitations, Kaplan's potential growth has been stymied and the company cannot efficiently facilitate future growth at its present facilities. By consolidating its Midwest operations, Kaplan hopes to eliminate redundant functions and costs. In order to achieve maximum efficiency on both a cost and operational bases, Kaplan planned to consolidate its existing offices by extending its current lease at 550 West Van Buren Street and occupying approximately 77,000 additional

square feet at 225 West Wacker Drive, Chicago (Option 1) or split operations between a location in Illinois and another in Indiana (Option 2).

As part of its proposed consolidation plans, Kaplan will completely vacate 3 of the 4 buildings in which it currently resides (311 S. Wacker, 10 S. Wacker, and 30 S. Wacker), will extend its tenancy at its current 550 W. Van Buren location, and will occupy new premises at 225 W. Wacker.

Kaplan Higher Education Corporation will retain 400 full-time jobs between the two facilities and make a Capital Investment of \$24,120,174.

### **Kerry Inc.**

This project will add roughly 10,000 sq. ft. of additional production space to the Gridley plant and provide the gun puffing technology by transferring technology developed in the Company's Mecca, California plant. This project will provide the Gridley Plant with the new bulk packaging machine developed by Kellogg's.

Kerry Inc. will create 8 full-time jobs and make a Capital Investment of \$3,200,000.

### **Kraft Foods Global, Inc.**

Kraft Foods Global, Inc. has proposed the addition of two manufacturing lines at the company's Champaign, Illinois facility. The capital investment is expected to be \$8 million for this project which will be in the form of new equipment and result in the addition of 25 new full-time jobs in Champaign, Illinois.

The Champaign, Illinois facility was competing with another Kraft Foods facility in Springfield, Missouri for the proposed investment.

### **Leisure Properties LLC d/b/a Crownline Boats**

Leisure Properties LLC and Dreams Come True LLC were formed in July 2009 to acquire the assets of Crownline Boats, Inc. Leisure Properties LLC is the operating company and will own all assets, except for the real estate. Dreams Come True LLC will own the real estate and lease the real property to Leisure Properties LLC.

Leisure Properties LLC d/b/a Crownline Boats will create 5 full-time jobs, retain 130 full-time jobs and make a Capital Investment of \$1,876,568.

### **Lundbeck Inc.**

The Project's objective is to establish a location for Lundbeck's US headquarters. The current lease expires in 2011. The company intends to enter into an 11-year lease for office space in the Parkway North Complex. Based in Deerfield, Ovation Pharmaceuticals, Inc. was founded in 2000, with a focus to acquire and develop specialty pharmaceutical compounds for the US market for severely ill patients with high unmet medical needs. In March 2009, Denmark-based H. Lundbeck

A/S acquired Ovation and changed the company's name to Lundbeck Inc. The alternative site for this project was New Jersey, as such a location would have been less expensive and near other Lundbeck operations.

Lundbeck Inc. will create 34 full-time jobs, retain 183 full-time jobs and make a Capital Investment in the amount of \$13,970,400.

### **Mandus Group LTD**

Mandus Group LTD moved from Davenport, Iowa to 2408 4th Avenue, Rock Island, Illinois approximately 2 years ago to allow for more engineering and manufacturing operations. This current new expansion is a result of increased sales and growth for particular items such as the Hydraulic System Test and Repair Unit (HSTRU). Mandus Group LTD will be making leasehold improvements to a 7,500 square foot warehouse and assembly area with built in cranes to assemble various products. The expansion will also include the leasing of a neighboring four-story office building. The building will be renovated to allow for increased office and engineering growth.

Mandus Group LTD will create 24 full-time jobs, retain 12 full-time jobs and make a Capital Investment of \$971,420.

### **Neuco Inc.**

Neuco Inc. is proposing to expand their current location which is located at 5101 Thatcher Road in Downers Grove by going over the detention area east of their building which they currently own. The Company will build a 3-story building that the first floor would be to replace the current volume of detention for storm water, the 2<sup>nd</sup> floor would be to park 45 cars, and the third would be a combination of 12,000 sq. ft. of office space and 6,000 sq. ft. of warehouse. At the same time, the Company will convert most of their current office space back to warehouse use.

Neuco Inc. will create 7 full-time jobs and retain 65 full-time jobs. The Company will make a Capital Investment of \$2,601,384.

### **Nippon Sharyo USA, Inc.**

Nippon Sharyo USA, Inc.'s new facility will be utilized to assemble rail passenger car body structures, affix various fixtures and components such as mechanical, electrical and/or pneumatic parts procured from both inside and outside of the United States, and then ship the same out as a final, inspected and completed product. The new facility would act as the center of activities of the Nippon Sharyo group in the United States. Activities and departments planned to be located within the new facility would include production, management, purchasing, quality assurance, strategic sales and engineering departments. Some of the aforementioned functions may be transferred from the current Nippon Sharyo USA, Inc. office, which is currently located in Arlington Heights, Illinois.

Nippon Sharyo USA, Inc. will create 120 full-time jobs and retain 15 full-time jobs within 2 years and create an additional 130 full-time jobs, for a total of 250 full-time jobs created, within 3 years,

between their new facility in Rochelle, Illinois and their existing facility in Arlington Heights, Illinois. The Company will make a \$35,000,000 Capital Investment in the new Rochelle, Illinois facility.

### **Peerless Industries, Inc.**

Despite a down economy, there is still an increasing demand for information presented through video and audio. Consumers continue to search for new ways to expand and enhance these audiovisual products while getting the most out of these new technologies through mounting and installation solutions. Peerless has recently made a strategic decision to bring Asian outsourcing to a North American facility. Peerless Industries, Inc. is also considering doing additional in-house manufacturing in North America.

Management evaluated a number of potential investment options in Mexico, Wisconsin, Indiana and Illinois. Peerless Industries, Inc. currently has two sites in Melrose Park, Illinois which they would close and move to a facility in Aurora, Illinois.

Peerless Industries, Inc. will create 85 full-time jobs, retain 253 full-time jobs and make a Capital Investment of \$17,450,000.

### **Prairie Farms Dairy, Inc.**

In 1932, local creameries had begun to organize into a state-wide organization to facilitate the marketing of cream in Illinois. This cooperative organization was called Illinois Producers Creameries. Producers Creamery of Carlinville, now headquarters of Prairie Farms Dairy, was the ninth of twelve co-op creameries to become part of the organization on May 14, 1938. Currently there are 700 farm members. Prairie Farms and its subsidiaries manufacture and market a full line of dairy food products out of its own 24 plants and 13 joint venture plants throughout the Midwest and Mid-South. Prairie Farms' line includes a wide variety of fluid milk products; juices and drinks; cultured dairy products including dips, sour cream, cottage cheese and yogurt; and Prairie Farms ice cream.

Prairie Farms operates one Ultra Pasteurizing (UHT) plant in Granite City. The facility is located next to a 100,000 sq. ft. underutilized warehouse. The warehouse was closed in 1996. The UHT dairy plant is at capacity and needs to be expanded. The project will convert the warehouse into cold storage for the dairy plant. A corridor will be built between the two operations and convert the storage areas in the dairy into processing space. The project will better utilize the dairy floor space and utilize the existing warehouse space. The project was competing with two sites in Tennessee.

The project will result in the creation of 20 full-time jobs. The Company will invest \$11,300,000.

### **RR Donnelley & Sons Company**

RR Donnelley & Sons Company is in the process of an expansion of their print manufacturing operations in their Illinois market. RR Donnelley & Sons Company has a unique opportunity to purchase 609 South Kirk Road in St. Charles, Illinois, which could accommodate the new and

retained employees. RR Donnelley & Sons Company will be consolidating their Elk Grove Village and Carol Stream facilities along with their existing St. Charles facility.

RR Donnelley & Sons Company will create 55 full-time jobs, retain 355 full-time jobs and make a Capital Investment of \$27,000,000.

### **Rasmussen College, Inc.**

Currently, Rasmussen College, Inc. occupies 30,000 square feet of leased space at the Burr Ridge location. The proposed project is the expansion and relocation of the company Headquarters currently located in Burr Ridge, Illinois to Oak Brook, Illinois.

In addition to the growth in administrative jobs in Oak Brook, which include accounting, finance, operations, sales and marketing and information technology positions, as well as new field instructional design and online curriculum development personnel, there may also be new positions for academic faculty, deans and campus administration staff. All new Illinois employees will originate from Oak Brook and the academic faculty may rotate from campus to campus providing educational service to the student clientele. Certain campuses are projected to have new academic positions, including Rockford, Aurora, Romeoville, Mokena, in addition to the Oak Brook Headquarters.

The Headquarters project in Oak Brook, Illinois will create 105 full-time jobs and make a Capital Investment of \$7,660,567.

### **Restaurant.com**

Due to rapid company growth Restaurant.com needs to expand in three major areas: IT, Marketing and Customer Service. IT positions will focus on positions to help build company infrastructure. Marketing positions will focus on positions to help generate additional consumers to website. Customer Service positions will primarily focus on helping customers. Restaurant.com will expand their current Arlington Heights location. The State of Illinois incentive is necessary to keep these positions within Illinois and not allow new positions to be outsourced to Kansas City, Missouri or Miami, Florida.

Restaurant.com will create 30 full-time jobs, retain 26 full-time jobs and make a Capital Investment of \$2,758,673.

### **Rhodia, Inc.**

Rhodia, Inc. was considering a North American realignment plan to help control costs across their production facilities. While the company was considering a strategic realignment, the recent acquisition of a company that is located in University Park, Illinois has made this analysis even more necessary since there are obvious synergies and productions that can be consolidated. The company will be making critical decisions about their North American operations.

Rhodia, Inc. will create 5 full-time jobs (University Park location), retain 190 full-time jobs (42 in Blue Island, 33 in Chicago Heights and 125 in University Park) and make a Capital Investment of \$12,004,400.

### **Ronin Capital, LLC**

Ronin Capital, LLC anticipates future growth and is actively expanding its business; requiring a new location that can accommodate their growth and respond to industry changes (e.g., the increase in electronic trading). As a practical matter the firm has outgrown its existing facilities in Chicago and the requirement for firms like Ronin Capital, LLC to maintain a presence on the floors of the exchanges has materially diminished. However, the trading industries migration to electronic trading has created a much more real estate centric environment and the cost to buildout the necessary infrastructure to support the requisite information technology is becoming a key determinant for a firm's long term profitability.

Ronin Capital, LLC will create 30 full-time jobs, retain 64 full-time jobs and make a Capital Investment of \$29,569,962.

### **RTC Industries, Inc.**

The project is a new assembly/warehouse/distribution center facility of 503,200 square feet in Romeoville, Illinois. The company currently operates at 3101 S. Kedzie Street in Chicago, Illinois, in a 495,784 sq. ft. facility that is older and outdated and no longer meets the future needs of the company. The company has been at its present location in Chicago for over 30 years. Total employment is 100 full-time employees and 20 - 300 temporary workers.

RTC Industries, Inc. (RTC) will retain 100 full-time employees and make Capital Improvements of \$9,321,585.

### **SunCoke Energy, Inc.**

Sunoco, Inc. announced in June, 2010 that it has started the process of separating SunCoke Energy, Inc. from Sunoco, Inc. in the first half of 2011 as part of a strategy to unlock shareholder value.

SunCoke Energy, Inc. conducted a site search to relocate its headquarters from Knoxville, Tennessee. The decision to relocate SunCoke's headquarters comes after careful study and review of the company's future operating needs in light of its growth prospects. The review determined that, by relocating to an international air travel hub, the company would be better positioned to service the international steelmakers that comprise its existing customer base, pursue growth on a global scale, and tap a broader pool of talent with industry-specific experience.

SunCoke Energy, Inc. will create 105 full-time jobs and make a Capital Investment of \$6,606,620.

### **Synergy Flavors, Inc.**

Synergy Flavors, Inc. has run out of capacity within the existing space at 1220 and 1230 Karl Ct. in Wauconda, Illinois. The Illinois operations is currently running 3 shifts and the facility cannot be expanded any further outside its current footprint. In addition, the company has an operation in Rochester, New York that will be consolidated into a larger facility the company plans to purchase and expand in Wauconda. The company requires approximately 110,000 square feet of total space in order to consolidate the operations and leave room for future growth.

Synergy Flavors, Inc. will create 8 full-time jobs, retain 50 full-time jobs and make a Capital Investment of \$9,600,000.

### **SYNNEX Corporation**

SYNNEX Corporation is currently located in a 250,000 sq. ft. location in Glendale Heights, Illinois which has no sufficient room for the current employees or inventory and no possibility of expansion. SYNNEX Corporation will purchase the new Romeoville, Illinois facility when available by the selling agent. The primary role of this facility is as a distribution center hub in the Midwest for a bulk of the inventory owned by SYNNEX to the local and distant ship to destinations.

SYNNEX Corporation will create 68 full-time jobs, retain 91 full-time jobs and make a Capital Investment of \$18,530,626.

### **Systems Material Handling Co. d/b/a MHS Automation, Inc.**

Systems Material Handling Co. will consolidate their operations under one roof. Systems Material Handling Co. will be renovating a facility in Grayslake. The Company will retain 25 full-time jobs and make a Capital Investment of \$888,357.

### **TCG Packaging Services Group, Inc. d/b/a Triumph Packaging Group, Inc.**

To grow within its Bolingbrook, Illinois facility, Triumph Packaging Group, Inc. is planning a capital investment to install new machinery and equipment. In addition, the Triumph Packaging Group, Inc. would exercise its real estate options by signing a new ten-year lease. The Company will create 25 full-time jobs and retain 87 full-time jobs in Bolingbrook, Illinois. Triumph Packaging Group, Inc. will make a Capital Investment of \$4,402,466.

### **ThyssenKrupp Presta Danville, LLC**

ThyssenKrupp Presta Danville, LLC (PDI) has the opportunity to add a significant volume of business to their Danville plants by making investments to assemble, grind and polish finished camshafts to go to OEM customers.

Currently, the company's customer base consists of several well-known OEM's located in the United States, Canada, Mexico, Brazil and China. These customers are vital to their business, and

as such it is very important for the company to consider carefully any requests they have to move their facility to their manufacturing locations.

The company will create 100 full-time jobs and make a Capital Investment of \$43,092,000.

### **Trim-Rite Food Corporation**

Trim-Rite Food Corporation is a start-up hog slaughter plant. The building will be 128,000 square feet. Trim-Rite will be able to slaughter 3,200 to 4,000 hogs per day. Trim-Rite will be buying hogs from local hog farmers. Trim-Rite will be selling to other pork customers. The Company will create 100 full-time jobs and make a Capital Investment of \$5,616,052.

### **TWG Holdings, Inc.**

TWG Holdings, Inc. is the world's largest single-source provider of extended service plans solutions. In 2006, TWG was sold by AON to Onex Corporation, one of Canada's largest publicly-held companies. TWG has been actively exploring its options for corporate consolidation in order to maximize cost efficiency and foster a more unified corporate culture, TWG considered either expanding its Chicago headquarters or relocating its headquarters to a facility in Colorado.

The Illinois consolidation plan would combine operations at its current facility at 175 West Jackson, Chicago and create 100 full-time jobs. The Company will invest \$2,500,000.

### **U.S. Cellular Corporation**

United States Cellular Corporation sought EDGE tax credit benefits in connection with the execution of new leases for its Chicago Headquarters and Bensenville MIS locations, as an alternative to pursuing other relocation opportunities which have been offered to United States Cellular outside the State of Illinois. This project will retain the existing 771 full-time jobs at U.S. Cellular's Chicago Headquarters and the 304 full-time jobs at the Bensenville MIS office. In addition, United States Cellular Corporation would commit to create an additional 25 full-time jobs. The Company will make a minimum Capital Investment of \$14,627,628.

### **Wiegel Tool Works, Inc.**

Wiegel Tool Works, Inc. (WTW), is a tool, die and metal stamping business, which specializes in complete turnkey packages. Their products and services include everything from helping customers in the design of various phases of piece parts and fully integrated progressive dies, to the manufacturing of the die on site, which includes trouble-shooting, de-bugging and PPAP requirements done in a climate controlled quality laboratory. By performing each step of the production process in-house, WTW delivers consistently superior quality products.

Currently, WTW operates from a 50,000 square foot facility, which is located at 935 N. Central Avenue, Wood Dale, Illinois. The Company has an immediate need to expand its operations. To facilitate the expansion, WTW would construct a 25,000 square foot expansion on its current property in Wood Dale.

Wiegel Tool Works, Inc. will create 20 full-time jobs, retain 47 full-time jobs and make a Capital Investment of \$2,350,000.

**WMS Gaming, Inc.**

Since 1998, WMS Industries has been engaged entirely in the manufacture, sale, leasing and licensing of gaming machines. The Company's subsidiary is WMS Gaming Inc. WMS Gaming, Inc. will construct a new facility at 3401 N. California Avenue, Chicago, Illinois. The location was selected over an alternative site in Reno, Nevada. The project will include construction of a four-story, 120,000 square foot research and development facility.

The Company will create 25 full-time jobs and make a Capital Investment of \$25,061,250.

**Wolverine Trading, LLC**

Wolverine Trading, LLC is expanding its business, which requires additional space. Wolverine Trading, LLC is in the process of expanding its WEX services. There is no longer, because of technology, a need to be located near the exchanges. The EDGE tax credits are necessary to equalize the costs with its existing New York location, which is competing for this project. Wolverine Trading, LLC provides securities trading, asset management, order execution, and technology solutions. The company provides market making and valuation arbitrage trading services. It offers quotations on a range of listed securities and derivatives, including equities and equity options; equity indexes and equity index options; futures and options on futures; exchange traded funds (ETF) and ETF options; and cash bonds. Wolverine Trading, LLC is headquartered in Chicago, Illinois with additional offices in New York, San Francisco, and London.

The Company will create 30 jobs and retain 10. Investment will include lease costs of \$2,649,631.

**Wonderlic, Inc.**

Wonderlic, Inc. will retain 77 full-time employees at the new Vernon Hills, Illinois site. The company is relocating the headquarters in Libertyville to a new well-maintained urban location (Vernon Hills) and is planning to sign an 8-year lease with an option for a 2-year extension. In addition the company is purchasing new furniture and will be upgrading the telephone and computer equipment.

Along with retaining 77 full-time employees the Company will make a Capital Investment of \$2,421,329.

**Woodland Foods LTD.**

Woodland Foods LTD. will consolidate three of its four locations currently in Gurnee, Illinois, into a headquarters and distribution facility location in Waukegan, Illinois, with only certain shipping functions remaining at 2011 Swanson Court in Gurnee, Illinois. The Company intends to sign a new lease on an existing building and relocate a majority of its operations to Waukegan.

The Company will create 10 full-time jobs, and retain 52 full-time jobs. The Company will make a Capital Investment of \$5,184,414.

**W. W. Grainger, Inc.**

In order to accommodate business growth, product line expansion and the integration of a subsidiary, W.W. Grainger, Inc., will relocate its current distribution center in Niles, Illinois. The project will include the retention of 330 full-time employees. W.W. Grainger, Inc. will purchase a new and larger distribution center at 701 Ferguson Boulevard, Minooka, Illinois, making facility improvements to the building, and placing in service material and handling equipment for a total cost of \$80,600,000.
