

# The Illinois Workforce

Illinois has an impressive workforce with the skills needed to help businesses succeed. Nearly one-half of the state's 5.9 million workers are professionals, skilled technicians, craftspeople or machine operators. Over 16 percent are employed in manufacturing. And Illinois workers are well educated – 46.3 percent have gained education beyond high school.

The Chicago metropolitan area is home to more than 4 million of the state's workers. Illinois scored third overall in a national study designed to reflect the current perceptions of different U.S. cities as desirable places in which to work. The study, commissioned by the international real estate services firm, Cushman & Wakefield, gave high marks among survey participants for the city's arts and cultural resources. Chicago was most highly rated by persons 35 to 40 years of age, males and single workers. Five other metropolitan areas include labor forces in the 100,000 to 300,000 ranges. An additional 4 metropolitan regions have labor forces between 35,000 and 99,000.

Illinois workers are known for their productivity. Illinois' manufacturing value added of \$82.93 per hour of labor is among the best in the Midwest.
